13th March 2018

To whom it may concern,

I am writing this letter to certify that Kinetic Pipeline Systems (KPS) have been providing construction services to RCR Water for the past ten months. Working together on behalf of the Water Corporation, RCR have developed a positive working relationship with KPS where they have always provided a very professional, timely and quality service in their area of expertise.

During their time, they have provided us with excellent support in the areas of pipeline construction in the civil and mechanical disciplines.

We can confidently recommend KPS as a reliable contractor and experts in their business area.

Please let this letter serve as a letter of recommendation for existing & future projects.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Scott Lamond", is written over a light blue circular stamp.

Scott Lamond
Project Engineer / Site Manager
RCR Water Pty Ltd
